

Borealis T8 LED Tube Lighting is an energy efficient replacement for traditional fluorescent tube lamps. The virtually unbreakable Borealis LED Tube eliminates the need for ballasts in any retrofit or new installation significantly reducing maintenance costs. The Borealis T8 tubes provide a high quality, uniform light and do not contain Mercury, UV or other hazardous substances so recycling costs associated with traditional tube lighting are eliminated.

### Features:

- 50,000 hours
- No UV, Mercury or hazardous substances
- No need for ballast or power supply
- Standard Bi-pin base
- ETL Intertek certified (#3188725) conforming to Class 2 UL standard for LED T8 & T5 tubes for general lighting services
- Suitable for refrigeration T8 applications (Not freezers)

### Specifications:

Item	Correlated Color Temperature (CCT)	Watt	Comparable wattage	Luminous flux	CRI	Voltage
LED T8 2ft Soft White	3000°K and 3400°K	10W	20W Fluorescent	696	75	85V-277V
LED T8 2ft Day Light	4100°K and 5500°K	10W	20W Fluorescent	860	75	85V-277V
LED T8 4ft Soft White	3000°K and 3400°K	20W	40W Fluorescent	1185	75	85V-277V
LED T8 4ft Day Light	4100°K and 5500°K	20W	40W Fluorescent	1216	75	85V-277V
